Industry Experience

With over XX years of experience in the PEO industry, we know how the PEO system works and how to serve your company best.

On Your Side

We act as a middleman between yourself and PEO providers—no strings attached. We will only pair you with providers that make sense for your business.

Close-Kit

The close relationships with the PEO companies we choose to work with allow us to give you the best possible scenario for your company.

Why Pair PEO?

Picking the right PEO partner for your business is like picking a spouse. With over 700 PEOs in the industry, how are you expected to know which one is right for your company?

Our Process

1

Introductory Call

This is a 30 minute conversation to determine specific criteria that will be used when evaluating which PEO may best suit your needs. We examine your current human resources situation, your business needs, and your objectives.

2

Data Collection

We analyze pertinent data identified during the introductory call to evaluate pricing across the appropriate PEO spectrum. Key factors include necessary healthcare quality, level of service, affordability, and geographic presence.

3

Preliminary Pricing

We standardize the total cost of partnership for each PEO so that we can quickly identify outliers to remove from the evaluation process. This allows us to create a short list of PEOs which best fit your requirements.

Curious about PEOs?
